BLOCK 3106/LOT 26.02/ZONE R1

Present was the homeowner and her neighbor, Brian G. Howell, Esq. of 3 Girard Lane. Mr. Howell was not present as her attorney but to give testimony as her neighbor. Both parties were sworn in. Testimonies coincided with the same facts. There are only 4 homes on the street and there is no real traffic. The homeowners do not walk anywhere from their homes other then to possibly visit each other. Mr. Howell gave testimony that he remembers a time he was talking with a neighbor right in the middle of the street for about twenty minutes and never saw a car or pedestrian. Mrs. Mitidieri said this cul-de-sac is not near destinations were people would be walking to. Mr. Schroeder asked the applicant that if the Town were to require it of her and her neighbors in the future that she would comply and she agreed. Mr. Schroeder made the Board aware that property is located in a zone 1 where the Town is most in need of developing curb and sidewalk. Mr. Herrmann of ARH did make a site visit but didn’t issue a report. He agrees with testimony given by others. Mr. Dixon also did not submit a report.

Mr. Joffe gave testimony that in that area no other homes have curb and sidewalk nor are there any walking destinations in that area. Rooms will consist of bedroom, bathroom and common area. White Horse HMT came before both the Environmental and Joint Land Use Board a few months back to discuss the rehabilitation of this property. They have met all requirements of the redevelopment plan so no variances are required. They are waiting final Pinelands approvals. This project will not disturb any ground but will add on to ground already covered. There is a plan to demolish a section of the motel on the one side to keep it an “L” shape. The project also includes a Senior Day Care (separate building available for 80 people), cafeteria and offices. There is direct access to cafeteria from rooms and an open space between the buildings so that seniors can enjoy the outdoors without the ability to wonder off as this may be an issue for some. This project will also assist the Town with our COAH requirements. Kevin Dixon gave a brief statement that all criteria is met and would be significantly positive for the town in many ways. Mr. Schroeder, Esq. announced that the applicant will be meeting with the Environmental Commission next week and that the applicant has agreed to any conditions that Mr. Dixon has requested. The lighting plan will be administratively approved. Mr. Sciulla testified next and commented that they are aware that the property has some wetlands but that they will not be developing in that area. The DOT’s approval will be supplied to the Board as soon as it is available. They will be correcting Pineland violation that was in existence from current owner so that it will meet their criteria. Mr. Sciulla said they met with fire officials and there is enough space for emergency vehicles and that they seem to be in good shape there. Mr. Pullia was at said meeting and reiterated that everything looked good and that applicant was agreeable to any suggestions that they had. Mr. Herrmann of ARH discussed the need for curb and sidewalk and this will be done. Conrad Roncati gave testimony about the elevation plans. He stated they have Board of Health approvals. White Horse HMT will be looking into putting roof mounted solar panels in the future which is why they went with a flat roof.
