Rules to qualify will change
starting this Fall.

Stay informed
and watch for letters,
emails, and texts from
NJ FamilyCare or your health plan.

A yearly flu shot is recommended for everyone 6 months and older to help prevent severe illness, hospitalization, and death.

This protection is important for high-risk groups, seniors (65 and over), young children, pregnant individuals, and anyone with conditions such as diabetes, asthma, or heart disease

Se recomienda la vacuna anual contra la gripe para todas las personas a partir de los 6 meses de edad, a fin de ayudar a prevenir enfermedades graves, hospitalizaciones y la muerte.

Esta protección es importante para los grupos de alto riesgo: personas mayores (de 65 años en adelante), niños pequeños, personas embarazadas y cualquier persona con afecciones como diabetes, asma o enfermedades cardíacas.
